Hookups project.

Previously the CDBG grant removed and replaced 24 failed septic systems with a 100%LMI rate.

The additional funds will provide for 15 extra locations across Benton County.

The project will consist of the installation of septic tanks and the crushing and filling of failing and/or abandoned septic tanks.

The additional construction funds will also be used to hire a designated representative as required by the Arkansas Department of Health to test the soil, design the septic system and apply for project permits.

Financing:

This project will include construction of water line extensions to service residents in and around the City of Berryville.

Funded Amount: \$2,250,000.00

Net Drawn: \$2,240,179.69

The total cost of this project, inclusive of LMI plumbing costs and administrative fees, is estimated to be \$8,834,000.

A grant in the amount of \$500,000 (IDIS #12248) was made available from 2015 CDBG funds.

This grant provides an additional \$2,250,000.

Although not bound by this agreement, USDA-RD has indicated a willingness to participate in this project by providing a loan in the amount of \$1,681,000 and a grant in the amount of \$3,798,000.

Additionally, the city will provide \$605,000 as a local contribution.

Approximately 60% of the households in this area meet the Low-to Moderate-income benefit.

This project will provide a safe and dependable potable water supply for these LMI citizens.

This project will replace the failing 23 year old sewer pumps and install an emergency back up generator to run the pumps when needed.

Wastewater is collected and pumped to the City of Edmondson and needs to be fully operational to flow adequately through the force main.

The emergency generator includes mounting the generator on to a concrete pad and wiring it to the pumps.

The back up generator will ensure the sewer pumps remain operational during power outages.

Outcome: Availability/accessibility

Matrix Code: Water/Sewer Improvements (03J)

National Objective: LMA

Initial Funding Date: 08/26/2019
Financing:
Funded Amount: \$221,500.00
Net Drawn: \$218,000.00

Description:
This project consists of replacing a 2" waster line with a 6" water line to improve the flow of water to the treatment plant in the City of Eureka Springs.
Construction involves installing a 6" water line to allow the sludge filter press to receive potable water more efficiently for the area residents in the City of Eureka Springs.
Lack of water pressure, and inadequate water supply from the water line has caused equipment to cease operation and reduced efficiency in the system.
The City of Eureka Springs will contribute \$66,300 toward the project.
Of the 2,073 residents, 1084 are of low to moderate income for a benefit of 52.30%.
